The Cerebral Palsy Scotland Annual Conference 2027

Sponsorship and Exhibition Opportunities
6 October | Glasgow

Who we are

Cerebral Palsy Scotland is the only specialist organisation in Scotland that has the expertise and resources required to provide care and support to people affected by cerebral palsy of all ages. For over 30 years, we have worked alongside individuals, their family members, carers and healthcare professionals to better support people with cerebral palsy.

Every year, we provide personalised therapy to over 250 people, our groups reduce isolation, and our Support Service offers advice and a listening ear. We share our knowledge and skills through training, conferences and working collaboratively. We raise awareness, and we campaign for lifelong access to knowledgeable, compassionate services and support.

The conference

Our annual conference is inclusive for everyone with experience of cerebral palsy, whether directly, through family, or professionally. The day offers the cerebral palsy community an opportunity to come together and share knowledge and experience.

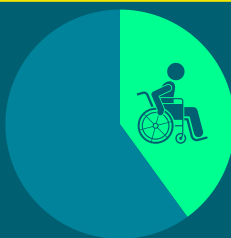

The speaker programme brings together a diverse range of voices, perspectives, and expertise, combining professional knowledge with authentic lived experience.

As the only UK conference focused on cerebral palsy, the exhibition area is a fantastic opportunity for brands to showcase products and services directly to people with cerebral palsy and their families, as well as health, social care and education professionals.
